PROFESSIONAL SUMMARY

Full stack developer with close to three years on the MERN stack and freelance work since 2022 across Shopify, WordPress and WooCommerce. I take projects from the brief through deployment and maintenance, and have shipped live sites for clients in Pakistan, the UAE and the United States. AI tools are part of my daily workflow: Claude Code, ChatGPT, GitHub Copilot and Cursor for development, prompt engineering for LLM features, and Playwright for browser testing, with every change reviewed before it ships. Studying for a BS in Computer Science at Riphah alongside full-time work. Open to remote and on-site roles.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap 5, Responsive Design

Backend: Node.js, Express.js, MongoDB, Mongoose, REST APIs, JWT Authentication, Role-Based Access Control

E-commerce & CMS: Shopify, Liquid, Shopify Admin GraphQL API, WordPress, WooCommerce, Elementor, Brilliant Directory

AI & Prompt Engineering: Prompt Engineering, Claude, Claude Code, ChatGPT, Gemini, GitHub Copilot, Cursor, LLM Tool Calling, Ollama

Tools & Workflow: Git, GitHub, GitHub Actions, Vite, npm, Postman, ESLint, Playwright, Vercel, Netlify, cPanel

PROFESSIONAL EXPERIENCE

MERN Stack Developer | Sani IT-Consultant, Lahore **Jan 2024 - Present**

- Build React front ends with reusable components and Context API state management across client applications.
- Write and maintain Node.js and Express.js REST APIs over MongoDB, covering schema design, query optimisation and fixing endpoints that slowed down as data grew.
- Implement JWT authentication with role-based route protection for admin, editor and standard user roles.
- Cut first-load bundle weight on multi-page builds by moving inner routes behind React.lazy and code splitting.

Web Development Intern | Sani IT-Consultant, Lahore **Jun 2023 - Dec 2023**

- Frontend internship working in HTML5, CSS3, JavaScript and React on live client websites under a senior developer's review.
- Customised WordPress themes and configured plugins to match client requirements.

Freelance Web Developer | Self-employed, Remote **Jan 2022 - Present**

- Rebuilt the Elite Zone Shopify store (elitezone.zone) on the Horizon theme: custom Liquid sections, cash on delivery and WhatsApp ordering, and menus and categories generated from live collections.
- Scripted Shopify theme releases with Node.js and the Admin GraphQL API, staging each on a preview theme and checking it on ten viewports with Playwright before publishing.
- Built and delivered custom WordPress and WooCommerce sites for clients in Pakistan, the UAE and the United States, from catalogue setup and payment gateways to shipping rules.
- Handled hosting, DNS, migrations and post-launch fixes directly with clients, including ongoing maintenance.

SELECTED PROJECTS

- **Elite Zone (elitezone.zone)** | *Shopify, Liquid.* Gadget store for Pakistan. When Shopify ignored new template sections, I mounted the category bar inside a section that already rendered.
- **Toolsfluent (toolsfluent.com)** | *Next.js, Vercel.* Over 100 free calculators built for Pakistan: solar payback, income tax, bijli bill, MDCAT aggregate.
- **SocialVids (socialvids.net)** | *Next.js, Vercel.* Video and image downloader for TikTok, Instagram, Pinterest, X, Facebook and Reddit.
- **Nexora** | *Electron, React, TypeScript, LLM APIs.* Desktop app with four AI agents. Wrote the agent system prompts and an approval gate that defends against prompt injection.
- **The Times of New York (thetimesofnewyork.com)** | *React.* News site with category sections, an article workflow and an admin dashboard for editorial roles.
- **Catchy Storefront** | *React 19, React Router.* E-commerce storefront; keyed cart lines by product, size and colour so variants never overwrite each other.

EDUCATION

BS Computer Science | Riphah International University, Lahore | 2026 - 2028 (in progress) | CGPA 3.4 / 4.0

Associate Degree in Information Technology | Riphah International University, Lahore | 2023 - 2025 | CGPA 3.66 / 4.0

CERTIFICATION & LANGUAGES

Certification: Microsoft Azure Fundamentals (AZ-900), 2023 | Web Development Internship Certificate, Sani IT-Consultant

Languages: Urdu (native) | English (professional working proficiency)
